“FORTUNE FAVOURS THE BOLD”

- VIRGIL, ROMAN POET -
BREATHTAKING EXTERIOR STYLING.

The New TEANA has been designed to stand out. Superb aerodynamics and a stylish exterior with deep creases and dramatic lines provide a sleek and sophisticated finish. Creating something average would have been easier, sure, but who wants to be average when you can stand out in style.
THE FEELING OF STOPPING.
AND LETTING THEM STARE.

Teana’s deep creases and dramatic lines started on a designer’s sketchpad. Then it took an innovative metal-stamping process to bring them to life. Building something average would have been easier, but on any average day, isn’t it nice to have something that takes your breath away?
ZERO-GRAVITY SEATS FOR COMFORT THAT’S OUT OF THIS WORLD.

Whether you’re on a cross-country road-trip or braving the daily commute, sitting in a car for too long can be fatiguing. To help you out, Nissan engineers looked to the cosmos where astronauts float weightlessly in zero-gravity conditions.

Zero-gravity Seats – In the weightlessness of space, humans tend to take a relaxed posture that minimizes stress on the body. To recreate this “neutral posture” when you’re behind the wheel, Nissan designed an articulated front seat that offers continuous support from the pelvis to the chest, along with seat cushions that flex in response to your unique pressure points. The result is a seat that’s amazingly comfortable and helps reduce fatigue, no spacesuit required.
Welcome to Teana\textsuperscript{®}. It's been waiting for you. That's because when you open the car door, it's as if Teana\textsuperscript{®} were expecting you. The available Driver's Memory System knows just how you like the angle of your seat and outside mirrors. And with details like available Dual Zone Automatic Temperature Control and an available rear window power sunshade, Teana\textsuperscript{®}'s interior makes you want to stay. Ready? Just press the Push Button Ignition, and you're on your way.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
ELECTRO-HYDRAULIC POWER STEERING

with Audio, Advanced Drive Assist Display (ADAD), Bluetooth Handsfree* and Cruise Controls.
Open the door to more convenience with advanced features in a finely crafted interior.

TAKE CHARGE OF YOUR SURROUNDINGS

Knowing the big picture helps you stay ahead. With the advanced dashboard and features, you'll always be in charge of the journey.
Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
DRIVE TO GREATNESS

Ambition, perseverance and the hunger to excel push the bold to greatness. Qualities in you that are also found in the all-new TEANA. Every inch has been meticulously crafted for those who appreciate the finer things in life. Go forth, take charge and create your destiny. The all-new Nissan TEANA.
INDULGE IN
EXCEPTIONAL COMFORT
The way you travel should reflect the well-being you deserve. Drive in absolute comfort with thoughtfully selected features set to fill your journey with luxury.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
WHAT IF YOUR DRIVE WAS THE BEST PART OF YOUR DAY?

What if just taking an on-ramp gave you an adrenaline rush? Or if you could know you’re free and clear before you change lanes. What if the design of your seat made long trips feel less so. And your customized radio station came along for the ride. What about getting a thumbs-up from the valet as you pulled away from the curb? Now it’s all possible. The all-new Nissan Teana®. Change the way you drive forever.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
TAKING A CORNER WILL NEVER FEEL THE SAME.

What if your car knew when you were cornering – and how to react to your commands? That’s the kind of intuitive response we’ve engineered into every Teana®. So you can enter a corner with more confidence, and exit with a big grin.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
Active Understeer Control. This innovative technology helps improve control when you take a corner. It reads the cornering situation and, if needed, will imperceptibly brake the appropriate wheel to help you steer through the turn.

Suspension. Teana’s rear multi-link suspension is designed for exceptional agility. You’ll feel it especially in the corners, when the layout of the suspension allows the rear wheels to turn slightly to match the front – giving you the sensation of riding on rails.

Shocks. Teana’s luxury sedan-inspired shocks significantly reduce vibrations for a smooth, flat ride. A rebound spring inside of each shock absorber makes for minimal roughness and more secure cornering, combining great performance with great ride comfort.
EVERY DETAIL, AN ACT OF REFINEMENT

Luxury and performance come together in a seamless union. From sleek, sporty curves to enhancements that improve aerodynamic performance, the all-new TEANA functions as beautifully as it appears.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.

PREMIUM BLACK LEATHER INTERIOR
A plush leather interior that gives pleasurable comfort to the driver and all passengers.
NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

Wouldn’t it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

Keeping an eye out. Smart technologies help monitor your vehicle’s systems and surroundings. Like a warning when you're straying from your lane, or a system that helps ensure you’re travelling on properly inflated tires.

Standard Tire Pressure Monitoring System with Easy-Fill Tire Alert
Lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.

Available: Smart Auto Headlights, Rain Sensing Wipers, Front/Rear Parking Sensors, RearView Monitor, Around View® Monitor, Blind Spot Warning, Lane Departure Warning and Moving Object Detection Help you respond. When you need to hit the brakes hard or suddenly manoeuvre around an obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
Helping protect you. When a collision is unavoidable, Nissan's Zone Body Construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

**Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat belt and occupant-classification sensors**

- Front seat-mounted side-impact supplemental air bags
- Roof-mounted curtain side-impact supplemental air bags
- LATCH System (Lower Anchors and Tethers for Children)

---

1. Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.
2. Vehicle must be on for the Easy-Fill Tire Alert to operate.
3. The Front/Rear Sonar Systems are a convenience, but not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object in front of or behind you.
5. Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.
6. The Blind Spot Warning System is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you.
7. Lane Departure Warning System operates only when the lane markings are clearly visible on the road. Speed limitations apply. See Owner’s Manual for details.
8. Moving Object Detection cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up.
9. VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.
10. Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner’s Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment.
BODY COLOUR

- DARK BLUE - (RAA)
- RADIANR RED - (NAH)
- DIAMOND BLACK - (G42)
- DARK METAL GRAY - (KBD)
- BRILLIANT SILVER - (K23)

Features and specifications are subject to change depending on market requirements. Please consult your local dealer.
YOU CAN COUNT ON GREAT HIGHWAY FUEL ECONOMY.

Teana®’s sophisticated 4-cylinder engine and Continuously Variable Transmission help ensure you a powerful and fuel-efficient drive. With exceptional highway fuel economy, you’ll enjoy amazingly smooth power delivery as you breeze past the pump.

PUREDRIVE™ The Teana® PUREDRIVE™ badge, representing our commitment to using innovation to build fuel-efficient vehicles with reduced CO₂ emissions. The PUREDRIVE™ initiative is just one aspect of Nissan’s commitment to developing more environmentally friendly transportation for all of us.

MR20DE Twin C-VTC Engine, 4 cylinder, 16 valve, 1,997 cc, 136hp/100kW horsepower at 5,600 rpm and maximum torque of 190 newton-meter at 4,400 rpm. provides excellent power in response to all kinds of drive. This system works with the C-VTC variable valve system to yield the maximum torque at low level. Additionally, the engine was also developed for superb fuel-efficiency.

QR25DE Twin C-VTC Engine, 4 cylinder, 16 valve, 2,488 cc, 177hp/127kW horsepower at 5,600 rpm and maximum torque of 234 newton-meter at 4,000 rpm. provides excellent power in response to all kinds of drive. This system works with the C-VTC variable valve system to yield the maximum torque at low level. Additionally, the engine was also developed for superb fuel-efficiency.

Xtronic CVT® (Continuously Variable Transmission). Say goodbye to fixed gear ratios and hello to a new kind of CVT. In the newest version of our CVT, friction is reduced by up to 40% and the ratio coverage is increased to greater than that of some 8-speed automatics. What does that mean behind the wheel? Better acceleration and fuel economy, plus performance so smooth, it’s like riding a continuous wave of power.
What if your daily drive got an adrenaline boost? Altima’s V6 engine not only gives you incredible acceleration, but its Xtronic CVT features three modes for a more customized driving experience.

4-cylinder Engine. Choose the 2.5-litre, 127kW/170hp 4-cylinder engine and get more than just spirited performance. The advanced intake system optimizes the opening of intake valves at high rpm to keep the torque curve flat, giving you smooth power while contributing to the impressive highway fuel economy.1
